Recent Logo/Branding design for the TeaPod catering company

A colorful illustration of a garden scene. In the foreground, a blue wheelbarrow is filled with brown soil. To the left, there's a potted plant with pink flowers and a green bush. In the background, a yellow and white striped fence stands against a light blue sky with white clouds. To the right, a wooden trellis is covered with various vegetables including carrots, onions, and tomatoes. The top of the illustration features a circular logo similar to the one on the left page, but with a blue background and white clouds.

On train vinyls
200g adhesive, any size, long lasting.

Pocket timetables
D5 size, large print.

Mini timetables
Various lengths folded to a finished A7 size.

Hot Weather

- Hot Weather**
- During hot weather help make your journey more comfortable with these travel tips:
- If you are feeling unwell do not board a train assistance from a member of staff.
 - Have a cold drink with you. Remember that alcohol can make the effects of dehydration worse.
 - If you feel unwell on a train do not pull the communication cord while in between stations we can get assistance to you more quickly than if stopped in a station.
 - If at all possible stay in the shade and out of sunlight.

New First Capital Connect timetables
From 11 June 2006 our new timetable comes into effect. The new timetable booklets will be available at our ticket offices from 14 May 2006.

Web design

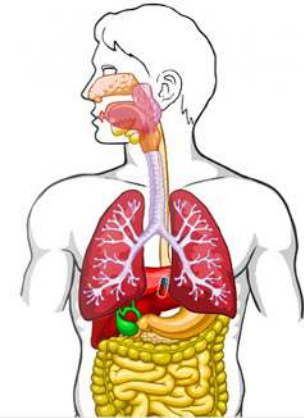

Any pharmaceutical company has to be that any drug they produce will not have harmful side effects.

Extensive safety and toxicology experiments are carried out, so that the **route of a compound** in the body can be examined as well as the **amount** and the **speed of absorption**.

It is important to find out how the compound will be **spread over the different organs**, how the **liver breaks it down** and how it is **excreted by the body**.

Depending on the results of various studies it is decided whether to develop the compound in clinical studies. A positive decision means that a new **'clinical candidate'** is available.

Introduction

Do you know where these words come from? You will by the end of this unit. Click on the highlighted words in the conversation to get a taste of the amazing diversity of word origins.

"Oh **God**, I still haven't started my **Language Change assignment**.

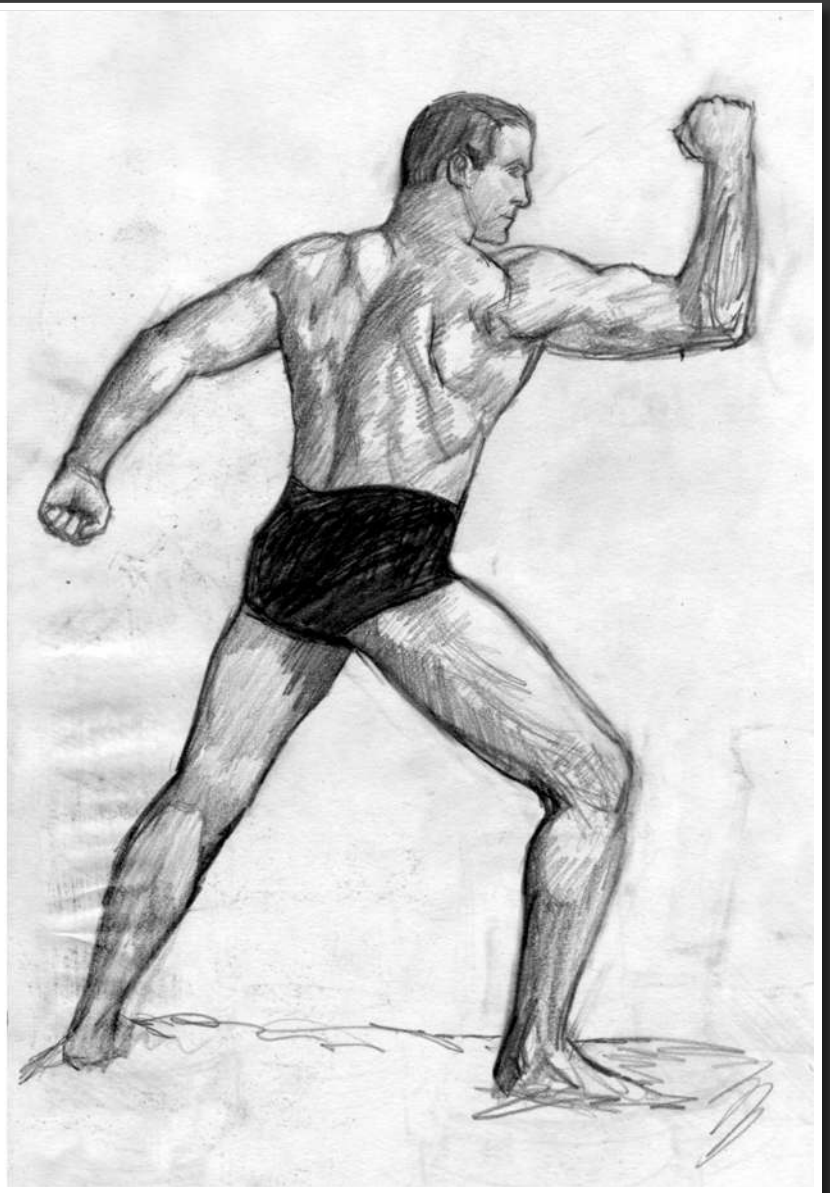

Mr. Davis will go **berserk** if I'm late with another one.

Don't worry, he's more **chilled out** than you think.

I found some **etymology** sites on the web that really helped me.

Come on. Let's go to the **Cyber café**. I'll show you where they are.
